NOTES

- Please make sure you are checking your student's agenda & homework each night. Grade Level Policy is Recess Detention if homework is not done.
- Please do not take items out of your child's binders & folders. We know they can get full at times, but we will take the time to clean them out at school. A couple students did not have what they needed this week because of this. Thank you for your help & understanding.
- Open House is NEXT Tuesday, September 25th. We will combine and have 2 sessions. We will go over some of the big topics and from each of our classes. We hope you can make it!

WHAT WE ARE LEARNING

Math: We will continue with Multiplication patterns, properties & products next week. The students will have a take home quiz on Monday which is due Wednesday.

Social Studies: We have started Chapter 10 Lesson 2. We will build our Sod Houses on Tuesday and continue with our Westward Expansion unit.

Science: We will be planting our seeds for the terrarium section of our Eco column. We will also continue taking notes on Ecosystems. Our next section focuses on the "roles that organisms play in their "environment". Continue studying notes each night for 5 minutes.

Roots: Lesson 2 quiz will be on Thursday. Quizlet has awesome practice sessions. Just type in quizlet.com, classical roots book 5 and the lesson number.

Grammar: We will continue our study of verbs. IXL has many practice sessions to help prepare for assessments.

Writing: We will be writing an essay based on an informational reading article called "The Paper Bag Machine Inventor". This is a pretest type activity.

DOM & DOL: Week 5
